RT-2000 RECIRCULATING TANK

The Albatross RT-2000 Recirculating Tank is designed for easy, safe and efficient ink removal and the recycling of screen wash chemicals. Used with Albatross R.S.W. Screen Wash, you can clean virtually any type of screen print ink from screens and squeegees. The system pumps screen wash through a trigger activated brush, filters and reuses the screen wash, prolonging chemical life and reducing overall screen washing costs.

Features:

- Sturdy Polypropylene Construction
- 1/4" Pneumatic Pump
- Large 25 micron Filter Cartridge
- Nylon Trigger Activated Flow-Thru Brush

Introducing the New...

ALBATROSS PNEUMATIC SCREEN OPENER

Powerful and cost effective, the new Albatross Pneumatic Screen Opener allows you to use Albatross Plastwipe or Expert ISO 400, purchased in gallon form, instead of aerosol screen openers. Clear clogs quickly without the use of harsh solvent based screen openers for a fraction of the cost. No more flammability and disposal issues associated with aerosol cans. Attach one tube to your compressed air source and drop the other into a container of press-wash and your ready to go.
