

Environmentally Sensitive SCREEN CLEANING CHEMICALS

from the Leader in Cleaning Technology

The most complete line of screen cleaners, stencil & emulsion removers, haze & ghost removers and mesh preparation degreasers.

With Albatross you do not have to sacrifice performance for safety. We use the safest chemicals available to meet your performance requirements. Our reclaiming system is a unique set of custom formulations designed to carefully remove imbedded inks and stains... quickly, safely and efficiently from all mesh sizes and surfaces. Albatross Screen Cleaning Chemicals:

- Meet E.P.A. regulations.
- Do not contain SARA 313 listed chemicals.
- Are lower in toxicity.
- Do not contain any ozone depleting chemicals.

SCREEN CLEANERS

Albatross screen cleaners penetrate and lift ink from the screen. All Albatross screen cleaners have high flash points, are low in toxicity and do not contain any hazardous components.

Albatross R.S.W. Screen Wash

- A low evaporation press wash and recirculating solvent.
- Designed to work quickly and efficiently on all inks to open dried or clogged screen images.
- Ideal for quickly washing the screen after the press run.
- Non-toxic, high flash point and pleasant citrus scent.

Albatross Plast Wipe Press Wash

- A water-soluble press side wash designed to work quickly and efficiently on plastisol inks.
- It evaporates fast without leaving any solvent residue on the screen.
- Plast Wash has a higher flash point than lacquer thinner, alcohol, ketones, etc.

Albatross L.U.V. Graphics Press Wash

- A water-soluble press side wash designed to work quickly and efficiently on U.V. and Solvent Based Inks.
- Has a moderate evaporation rate and leaves no solvent residue after wipe-up.
- Non-staining formulation. Ideal for quickly washing the screen after the press run.
- Low vapor pressure, low odor, and high flash point.

Albatross D-Grade Ink Degradent

- Specially formulated to remove plastisol ink from both water resistant and pure photopolymer type stencils without softening or damaging the stencil.
- Excellent ink degradent for the removal of offset from rollers and blankets. Will not swell the rubber surface.
- Excellent emulsifying and degreasing properties.
- Dissolves fresh and dried printing inks currently utilized by the industry.
- Low vapor pressure, and low odor.

- Completely biodegradable with low volatility.
- Washes off with water.

Albatross G.D.R. Graphic Ink Degradent and Screen Wash

- Removes U.V. & solvent-based inks.
- Will not soften or damage stencil.
- Leaves no solvent residue.
- Biodegradable.
- Water Soluble.
- High Flash Point.

Expert® Iso 400/305e Ink Wash

- Removes both Plastisol and U.V. Ink
- Breaks down ink quickly
- Does not leave a residue on the screen
- Dries fast to allow for immediate re-taping

STENCIL AND EMULSION REMOVERS

All Albatross emulsion removers are biodegradable and do not contain any V.O.C.'s. They are offered in "ready to use" concentrated liquid and concentrated crystal varieties. They are designed for quick and efficient removal of emulsions.

Albatross Sten-X Stencil Remover

- Ready to use, regular strength emulsion remover.
- Removes emulsions and capillary films from screens.

- Has superior wetting properties.
- No precipitation of active ingredients.

Albatross Sten-Erase Stencil Removing Solution

- Ready to use, extra strength emulsion remover.
- Designed for quick removal of water resistant emulsions.
- Removes emulsions and capillary films from screens.
- Degreases while cleaning.

Albatross Con-ER Stencil Removing Concentrate

- Highly concentrated liquid emulsion remover.
- Easy to dissolve, PVA/PVOH Stencil Reclaiming Concentrate.
- Excellent freeze thaw characteristics, ideal for cold climates.
- Never precipitates out active ingredients when frozen.

Albatross SMP Stencil Removing Crystals

- PVA/PVOH Stencil Reclaiming Concentrate designed for quick and convenient removal.
- Removes emulsions and capillary films from screen.
- Dissolve contents into water to make reclaiming solutions.
- Easy to use. No precipitation of active ingredients.

GHOST AND HAZE REMOVERS

Albatross ghost and haze removers completely eliminate any remaining ghost or image stains that may remain on the screen after emulsion removal. This can be an important process for obtaining perfectly clean screens.

Albatross Haze Free Ghost and Haze Removers

- Specially formulated to remove imbedded U.V. and plastisol inks (haze and ghost images) that remain on the screen.
- Emulsifies and dissolves the ink constituents; resins, binders, pigments, plasticizers, etc.
- The solution suspends these constituents so re-attachment to the mesh surface is prohibited, thus allowing for water-rinse removal.
- Excellent degreaser, as it also removes dirt, residues and sizing.

Albatross Haze Out Haze Remover

- Non-Hazardous, Non-Caustic
- Removes imbedded UV and Plastisol ink which remain after ink and emulsion removal.
- Does not contain any sodium periodate or periodic acid.
- Excellent degreaser as it also removes dirt, residues and sizing.

Albatross Haze Remover Paste

- Removes Imbedded Ink, Haze and Ghost Images
- Rinses off with High Pressure Water
- Very low VOC's
- Can be left on screen for longer period of time for difficult haze & ghost images

MESH PREPARATION DEGREASERS

Albatross mesh degreasers remove any remaining contaminants after the emulsion has been removed. This helps to improve the film adhesion and proper emulsion coating.

Albatross Bioprep Mesh Preparation Degreaser

- A non-flammable, non-hazardous, low V.O.C., biodegradable degreaser.
- Non abrasive fabric treatment that acts like a wetting agent for use on all synthetic and wire screen mesh.
- Provides an even sheeting of water for complete uniform stencil adhesion.
- Improves film lamination and bonding of direct photo emulsions.
- For use before each stencil preparation

Albatross Superprep Mesh Preparation Abrader

- Abrasive mesh pretreatment containing microscopic grit and a degreaser wetting agent.
- Designed to make monofilament fabric more receptive for excellent stencil adhesion.
- Works quickly to lightly abrade and degrease without clogging the mesh openings.
- Works gently and can be used before each screen preparation.

ALL IN ONE SCREEN CLEANERS

Albatross Envirall Ink & Stencil Remover

- Designed for quick and convenient removal of both Plastiso Ink and PVOH Stencil
- Allows for cleaning and reclaiming in one step
- Degreases screen at the same time
- Low odor and low V.O.C.'s

Albatross EVP Ink & Stencil Remover

- Formulated for use in all dip tanks.
- Removes ink and stencil in one step.
- Also degreases screen.
- Thinner viscosity allows for better penetration.
- Non hazardous, no VOC's and low odor.

Albatross UV-ALL Graphics Ink & Stencil Remover

- Removes both ink (UV & Solvent-based) and stencil from all screens in a single application.
- Also degreases screen at the same time.
- Non hazardous, low VOC's and low odor.

PACKAGING

All Albatross screen cleaning chemicals are packaged in 1-Gallon, 5-Gallon and 55-Gallon drum sizes, Albatross SMP Crystals are packaged in a 2-lb. container. Albatross offers a chemical resistant 16 oz. trigger spray container for use with all of the above liquid products.

PROPERTIES/PACKAGING CHART

PRODUCT	PACKAGE SIZES	FLASH POINT	VAPOR PRES. hg @ 20°C	V.O.C. gr/liter	HAZARDOUS for shipping
SCREEN CLEANERS:					
R.S.W.	1-G, 5-G, 55-G	210°F	0.17 mm	984	No
Plast Wipe	1-G, 5-G, 55-G	141°F	1.0 mm	798	No
L.U.V.	1-G, 5-G, 55-G	154°F	7.0 mm	742	No
D-Grade	1-G, 5-G, 55-G	205°F	0.44 mm	741	No
G.D.R.	1-G, 5-G, 55-G	179°F	0.50 mm	748	No
Iso 400/305e	1-G, 5-G, 55-G	151°F	0.7 mm	748	No
STENCIL & EMULSION REMOVERS:					
Sten-X	1-G, 5-G, 55-G	None	1.0 mm	0	No
Sten-Erase	1-G, 5-G, 55-G	None	1.0 mm	0	No
Con-ER	Q, 1-G, 5-G, 55-G	None	1.0 mm	0	Yes - Corrosive
SMP Crystals	2 lbs.	None	N.A.	0	Yes - Oxidizer
GHOST & HAZE REMOVERS:					
Haze Free	1-G, 5-G, 55-G	170°F	4.55 mm	748	Yes - Corrosive
Haze Out	1-G, 5-G, 55-G	170°F	1.5 mm	877	No
Haze Remover Paste	1-G, 5-G, 55-G	None	1.8 mm	200	Yes - Corrosive
MESH PREPARATION DEGREASERS:					
Bioprep	1-G, 5-G, 55-G	None	.294 mm	240	No
Superprep	1-G, 5-G, 55-G	None	.294 mm	240	No
COMBINATION INK & STENCIL REMOVER:					
Envirall	1-G, 5-G, 55-G	None	1.0 mm	0	No
EVP	1-G, 5-G, 55-G	None	1.0 mm	0	No
UV-All	1-G, 5-G, 55-G	None	1.4 mm	285	No
