- Made in Switzerland for Precision Quality.
- Unbreakable - High Impact Plastic Housing
- Variable Spray Nozzle

Item No. 2005 - 110-20V, 60 Hz.

Item No. 2007 - 110-20V, 60 Hz. - Direct Feed

Item No. 2006 - 220-40V, 50 Hz.

Item No. 2008 - 220-40V, 50 Hz. - Direct Feed

ACCESSORIES:

ALBATROSS GUN REEL

suspends gun over the cleaning surface for safer handling and faster operation. Tough steel case and heavy-duty balancing spring assures life-long and trouble free performance. Use with all Albatross Guns.

Item # 5001

ALBATROSS AIR DRYER ATTACHMENT

permits operator to clean and dry simultaneously. Quick drying eliminates rings and allows for immediate inspection. Comes complete with air hose. (Compressor required). Use with SG-5000 only.

Item # 2004

ALBATROSS DIRECT FEED EXTENSION

draws fluid directly from bulk containers. This saves time, reduces weight and avoids spills. Special filter and valve allows only clean fluid to enter gun and holds the prime. Use with SG-5000 only.

Item # 2003

SUPERKLEEN VENTA SYSTEMS

All **SUPERKLEEN VENTA SYSTEMS** provide strong vacuum suction to exhaust solvent fumes. The brisk air movement also dries the fabric aiding in the spot cleaning process. The volume of spot cleaning required and production facility space constraints will dictate which Superkleen Venta System will best serve your needs.

VENTA-T

Item No. 1254 – 110-20V, 60Hz
Item No. 1256 – 220-40V, 50Hz

VENTA-T AND VENTA T.A.G

- The most powerful mini spotting station made.
- Narrow buck (spotting arm) for sleeves, hosiery and pants legs.

- Made in U.S.A

Item No. 1264
 110-20V, 60Hz

Item No. 1265
 220-40V, 50Hz

HYDROSOLV JR. CLEANING STATION

The HydroSolv Jr. is a complete cleaning machine designed to remove all types of stains from virtually any type of fabric. Unlike conventional industrial spot cleaning methods (electric spot gun and volatile solvents), the HydroSolv System utilizes both the solvent and aqueous cleaners. This dual use ability allows operators to clean both "dry side" stains, such as grease, oil and dirt, and "wet side" stains, such as blood, food and rust. The addition of optional Vapor One System, used in conjunction with a HydroSolv System allows you to utilize steam for "set in" stains. The Vapor One is a compact steam generator with a convenient steam gun.

The HydroSolv Jr. is made to be placed on a table surface. It is ideal for dry cleaners, apparel manufacturers and clothing retailers.

Comes with 2 HydroSolv Spray Guns, a Jet-Air Drying Gun, Powerful Vacuum Exhaust Motor and a stainless steel cleaning arm.

Item No. 70-25, 100-170 psi, 32 Cu. ft./min., 110V, 60 Hz., 1 Phase, 6.5 Amps, 28.5" x 14" x 34", 80 lbs.

ACCESSORIES:

CHARCOAL FILTER FOR HYDROSOLV

The Charcoal In-Line Filter is the ideal way to absorb organic solvent vapors when using the HydroSolv Jr. The filter system is connected to the exhaust on the HydroSolv Jr. The vapors run through the charcoal filter system before exiting the working area. Replacement charcoal inserts are available.

Item No. 70-29, Charcoal In-Line Filter for HydroSolv Jr.

STEAM GENERATOR FOR HYDROSOLV

The Vapor One is a special mini Steam Generator which is ideal to use with the HydroSolv Jr. Cleaning Station. Steam can be of great assistance in removing set-in water-based stains. The convenient steam gun allows the operator to easily remove these tough stains. The Vapor One operates on standard 110V, 60 Hz. electricity so that it can be used with the HydroSolv Jr. without the need for special electric service.

Item No. 70-28, 110-20V, 60 Hz.
