## 101 USES

**Textiles:** Non-Staining spray lubricates all textile machinery. Stops friction and material drag. Great for feeders, attachments, cutting tables, blades and other equipment that comes into contact with fabrics.

**Furniture:** Lubricates metal parts without staining. Great for door slides, locks and joints. Stops adhesion of foam backing, foam rubber and other materials from metal, wood or other hard surfaces.

**Permanent Bond:** Spray both substrates to be adhered wait a few moments to let dry, and affix.

**Automotive:** Lubricates weather stripping, moldings, channels, doors, locks and car seat adjustment mechanism. Makes it easier to slide rubbers gaskets and seals over metal parts.

**Paper & Converters:** Spray on paper cutters, blades, drills, dies, saws and more. Will lubricate and rustproof to prevent friction and staining. Stops glue from adhering to equipment.

**Industrial:** Silicone is the best lubricant to prevent sticking and friction between plastic and rubber against all metals. Helps to stop rust and heat build up.

**Mold Release Agent:** Spray into molds to stop sticking. Allows for plastics to come out cleaner.

**Heat Sealing:** Stops all plastics (i.e. cellophane, vinyl, wax, etc.) from sticking to metals. Prevents carbon build up on irons, sealers and other hot surfaces.

**Screen Printing:** Stops screen from sticking to pallet when printing on cut parts. Great for use with flash cure cool down stations.

## AND MANY MORE!

# SPRAY SILICONE

- Lubricates, rust proofs and preserves
- Reduces friction and makes everything glide smoother
- Guaranteed not to stain fabrics

## HEAT STABLE SILICONE RELEASE AGENT

# No. 1651

### FOR INDUSTRIAL USE ONLY.

**DANGER:**  
CONTENTS UNDER PRESSURE. DO NOT STORE IN TEMPERATURES EXCEEDING 120°F. KEEP OUT OF REACH OF CHILDREN.

SEE DANGER AND FIRST AID INFORMATION ON BACK PANEL.

**Net Wt. 11 oz (312 grams)**
